

Garden Links

Agricultural Engineering Extension: Karen Funkenbusch, MA, University of Missouri-Columbia, Department of Occupational Therapy,
School of Health Professions, in the School of Medicine: Diana Baldwin, MA, OTR/L, FAOTA

The following World Wide Web addresses are recommended because they link to a variety of accessible garden information, general and specialized garden tools, and garden equipment along with further related sites. This is not a comprehensive listing and the time you invest in searching beyond this starting point will be time well spent.

<http://www.abledata.com>. **ABLEDATA** is the most extensive database listing items for persons with disabilities and the elderly.

<http://www.arthritisnet.com>. **Arthritisnet** has a lot of arthritis information plus a products list including some that would be of interest to gardeners.

<http://www.Garden.com>. **Garden.com** is a multi-dimensional garden resource. Its website is interactive, innovative, and informative. You can ask gardening related questions of the “garden doctor,” design your own garden with their “on-site Landscape Planner,” buy all types of gardening products, and read about current gardening trends. Also has 24-hour chat line.

<http://www.gardenscape.com>. **Gardenscape** is an information resource for the home gardener and professional in the gardening, landscape, and nursery industries. This site is primarily a garden supply company. Also, has nice links and information about gardening and accessibility.

<http://www.hortmag.com/>. **Horticulture Online** displays a large variety of horticulture products, tool descriptions, prices, and dealers.

<http://www.webcreations.com/notstooped/pwdtopsheet.html>. **Non-Stooped Garden Tools** is a company “dedicated to developing garden tools that require less stooping, kneeling, squatting and crawling.”

<http://www.nstep.net/push-n-prune/index.htm>. **Push-N-Prune** is a company that manufactures pole pruners and lopping shears that are easy to use but also very powerful. Their tools are ideal for working while standing or sitting.

<http://www.geocities.com/Heartland/Flats/1391/disabled.html>. **Susan Tomlin’s Disabled Gardening Page** is about gardening with a physical disability. Susan has designed a web page with great graphics and links.

<http://www.standupgardens.com>. **StandUp Gardens** displays ergonomic raised garden beds for easy mobility.

http://www.suite101.com/welcome.cfm/enabling_garden. **The Enabling Garden** by Diana Pederson's has bi-weekly articles for Suite 101, concerning adaptive gardening, recommendations for garden sites, disability related information, and discussion group.

<http://www.nsn.org/regio/cbglib/HortTherapyGardenUpdate.html>. **The New Enabling Garden** shows pictures of their new barrier-free enabling garden and links to various accessible gardens.

<http://www.totalliving.com/>. **Total Living (TLC)** offers thousands of ingenious assistive devices and gadgets.

<http://www.wheelaround.com/>. **Wheel Around Cart** offers the most unique garden utility cart around.
